PROFESSIONAL SUMMARY

A competent professional with 10 years of experience with knack for strategic planning and operational excellence bringing wealth of experience in team leadership and optimizing processes.

Comprehensive knowledge of the solar module manufacturing processes & Experience in setting up and managing the operations with a strong focus on lean manufacturing and data analytics.

EDUCATION

Bachelor Of Engineering: Electrical Engineering, 06/2012 - 05/2016
Shantilal Shah Engineering College - Bhavnagar

Young Leader's Program: Executive Education Program by Adani Group, 07/2024 - 07/2024
Indian Institute of Management - Udaipur

Solar PV Manufacturing Processes, 08/2016 - 02/2017
Adani Power Training & Research Institute (APTRI)

PROFESSIONAL ACHIEVEMENT

- Project - Throughput improvement won the prestigious Green Urja and Energy efficiency award 2025 presented by the Indian chamber of commerce.

WORK EXPERIENCE

Manager, 09/2025 - Current

ACME Solar

- Overseeing operations of a 1.2 GW solar module manufacturing line, ensuring optimal performance and production targets.
- Dedicately contributing from an operations standpoint to the 3 GW module line expansion project.
- Working on capacity expansion projects for the existing plant to enhance output and operational efficiency.

Associate Manager, 04/2024 – 09/2025

Adani Solar

- Responsible for the operation of the 1GW solar module manufacturing line.
- Managing a team size of 10 people (Assistant Managers) and 430 Diploma Trainees and Associates for the operations.
- Focused on Coordination, planning & execution of the production plan to meet the target.
- Developed and analyses operation performance metrics to measure operational efficiency, equipment utilization, daily OEE monitoring.
- Leading the Lean six sigma project for the cost reduction and actively engaged with the cross functional team for the execution.
- Coordinating with procurement, logistics, and warehouse teams for smooth material flow
- Driving the automation initiatives to enhance operational efficiency.

Deputy Manager, 04/2021 - 03/2024

Adani Solar

- Collaborated with project team on installation and commissioning of advanced 2 GW PERC module manufacturing line.
- Thereafter, Focused on the Scaling up of the operation and stabilization of the processes.
- Developed ISO-compliant documentation, including standardized procedures, Work Instructions and check sheets.
- Implementation of the KAIZEN, Poka-Yoke for the continuous improvement
- Performed data analysis to explore issues, determine root causes and continuously identify improvement opportunities. Analyses & assesses the problems and provide cost-effective solutions
- Facilitating the Quality circle projects and 5S Initiatives

Assistant Manager, 04/2020 - 03/2021

Adani Solar

- Led the 300 MW module manufacturing line.
- Production of Multi, Mono, Mono PERC and Bi-facial modules according to the production plan

- Awarded with Golden award for best Record book & Kaizen in NQCFI-2019
- Consecutively 4 times winner of the best team of the Month (leading a team) for cost saving, rejection control (Quality circle), Yield improvement and EHS advancements.

- Ensuring the smooth production flow by minimizing the performance bottlenecks
- Successfully completed the Throughout & Yield improvement projects, BOM consumption optimization & wastage reduction thus achieving the cost of manufacturing targets

Senior Engineer, 03/2017 - 03/2020

Adani Solar

- Closely worked with the project team for the installation, commissioning of the 1.2 GW of solar module manufacturing line
- Mainly focused on the process stabilization, scaling up of the production
- Deployment of the Corrective and preventive measured based on the stockholder's feedback
- Mentored junior engineers, associates providing guidance in best practices and fostering professional growth opportunities.

Graduate Engineer Trainee, 08/2016 - 02/2017

Adani Solar

- Undergone the 26 week long extensive training program on "Solar manufacturing processes" during the induction phase
- Worked with the Project and OEM team for the installation of the machinery.

SKILLS

Operations management	Resource Optimization
Project Managements	Process Improvement
Quality Management	Lean Manufacturing

CERTIFICATIONS

IMS 9001:2015 Lead Auditor 08/2025
Six Sigma Green Belt, 03/2024
Certified Internal IMS Auditor, 01/2024

SOFTWARE

MS office (Advance)	SAP
Minitab	MES
Power BI
